

Chelmsford City Council, Community Sport and Wellbeing Team have recently launched a new initiative to encourage families and children to cycle, scoot or walk in their local areas. Our family friendly mapped routes are ideal for children who are learning to ride a bike and for those who are already a confident rider. The routes can also be explored on foot or on a scooter. There are three options for each route in your local area varying in distance from short, medium, and long.

The routes avoid large roads and highlight interesting places to visit along the way. Each map takes families through some of Chelmsford's prettiest scenery and incorporates an "I-spy" quiz to keep young riders interested. This has specific questions to answer and landmarks to look out for. By answering the questions children will automatically be entered into a prize draw.

The Explore Chelmsford Maps can be found here www.chelmsford.gov.uk/explore
