5 July 2019

Dear Clare,

I am writing to provide you with details of essential work to renew water supply mains in Great Baddow, which may be of interest to you as it will affect residents on **Galleywood Road** and surrounding roads.

The water mains renewal scheme will be commencing within the next 14 days and will last for approximately sixteen weeks.

Essex & Suffolk Water is committed to ensuring we provide a reliable supply of excellent quality drinking water to our customers. This work will further improve the reliability of the water network and safeguard water supplies for future generations.

Following the commencement of this work, there will be traffic lights in place throughout the duration of the scheme. These will be introduced in phases and progress down the road in sections as we completed each length of main.

During the work, there will be times when we will have to interrupt the water supply to your property. These interruptions may last for up to three hours but please be assured, you will receive at least 48 hours advance notice of any of these planned interruptions via a card which is hand delivered by the site supervisor. There will also be other water supply interruptions of less than 30 minutes that we will advise you of by knocking on your property door prior to the interruption taking place.

A letter with all the information is being delivered to the residents of Galleywood Road. We hope this information will be of use to you if you receive any queries from residents.

If you have any questions regarding the scheme please do not hesitate to contact me on 01268 664938. Alternatively, if you would like to meet with the Project Manager, Daren Still, to discuss the plans further, we would be very happy to arrange a convenient time and date.

Yours sincerely,

Sophie Saunders
